- 25X1 1. Krizari activities, although still im progress in all parts of Creatia, in parts of Slovenia, and in southern Slavonia, appear to be characterized by defective military erganization. Operations are conducted by isomated groups, but there is little unified effort or coordinated leadership. Some of the group leaders, by their high-handed methods or desire for personal gain, have made themselves thoroughly unpopular, as for example, Jure Cirilich, leader of the Moslavina group, known for his requisitioning, stealing, and poor military leadership.
 - 2. Groups are known to be operating in the following areas:

Bilo Gora

Small group, mostly Ustashi, active principally around

Djurdjevac and Pedravski Klostar.

Prugevac

Dinjevac Ostrovae Believed to be allied with above group. Lad by a popular former Ustashi NCO.

Sirova Katalena

Grubismo Polje

Small group, not well led.

Moslavina

Fairly large and active group.

Zagorje

Sizeable Krizari activities. Men wear both civilian clothes

and uniforms. UDBA has made reprisels against the populace.

Zagrebacka Gora

Kalmik

Small groups active in this area.

Veli Trgevisto Krapina

Krizari have eaptured and killed Party leaders and other officials. In retallation, UDBA Zagreb has killed five

people for each official killed

Stajerske along Setla River

Similar resistance activities

3. Chetmik activities are not widespread in Creatia, but some have been noted in Macva and in the vicinity of Sabac and Valjevo.
